

The diagram illustrates a boltview template with a central live area and a surrounding bleed line. The live area is a rectangle with a blue dashed border, measuring 6.25 units in width and 8.5 units in height. It is positioned within a larger rectangle defined by a red dashed border, which represents the bleed line. A vertical dotted line is located 1.5 units from the left edge of the live area. Two circles are shown on the left side of the template, one above and one below the live area. The text '6.25 X 8.5 BOLTVIEW TEMPLATE' is centered within the live area. At the bottom right, the text 'LIVE AREA' is written in blue, followed by '1.5" LEFT MARGIN. 0.5" OTHER SIDES' in a smaller blue font. The red dashed border is labeled 'BLEED LINE' at the bottom center.
